

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Tekonsha, Mich. says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect. Quickest pile cure known. Best healing salve made. 25c at J. H. Swan's drug store."

Madame Midas

By Fergus Hume

CHAPTER XVIII.

M. Vandelpoup slept the sleep of the just, and next morning, after making his inquiries after the health of Madame Midas, he went into Ballarat in search of Pierre. On arriving at the Wattle Tree Hotel he was received by Miss Twesby in dignified silence, for that astute dame was beginning to regard the fascinating Frenchman as a young man who talked a great deal and meant nothing.

He was audacious enough to win her heart and then break it, so Miss Twesby thought the wisest thing would be to keep him at a distance. So Vandelpoup's bright smiles and merry jokes failed to call forth any response from fair Martha, who sat silently in the bar, looking like a crabbed sphinx.

"Is my friend Pierre in?" asked Vandelpoup, leaning across the counter, and looking lovingly at Miss Twesby.

The lady intimated coldly that he was in, and had been for the last two weeks; also that she was sick of him, and she'd thank M. Vandelpoup to clear him out—all of which amused Vandelpoup mightily, though he still continued to smile coolly on the sour-faced dame before him.

Gaston, however, failed to persuade Pierre to accompany him round to buy an outfit. For the dumb man lay on his bed, and obstinately refused to move out of the room. He, however, acquiesced sulkily when his friend told him he was going to Melbourne, so Vandelpoup left the room, having first secured Pierre's knife, and locked the door after him, and then sallied forth to buy his shipwrecked friend a box and some clothes.

In the afternoon Vandelpoup went to the lake and espied a little figure in white, and seeing that it was Kitty, he strolled up to her in a leisurely manner. She was looking at the ground when he came up, and was prodding holes in the spongy turf with her umbrella, but glanced up carelessly as he came near. Then she sprang up with a cry of joy, and throwing her arms around his neck, she kissed him twice.

"I haven't seen you for ages," said Kitty, putting her arm in his as they sat down. "I just came up here for a week, and did not think I'd see you."

"The meeting was quite accidental, I knew," replied Gaston, leaning back lazily; "but none the less pleasant on that account. Wouldn't you like to leave Papa and lead a jollier life?" asked Vandelpoup, artfully, "in Melbourne for instance."

"I—I don't know," she faltered, looking down.

"But I do, Bebe," whispered Gaston, putting his arms round her waist; "you would like to come with me."

"Why? Are you going?" cried Kitty, in dismay.

"I think I spoke about this before," he said. "I never say anything I do not mean," answered Vandelpoup, with the ready lie on his lips in a moment; "and I have got letters from France, with money, so I am going to leave the Pactolus."

"And me?" said Kitty, tearfully.

"That depends upon yourself, Bebe," he said rapidly, pressing her burning cheek against his own; "your father would never consent to my marriage and I can't take you away from Ballarat without suspicion, so—"

"Yes?" said Kitty, eagerly, looking at him.

"You must run away," he whispered, with a caressing smile.

"Alone?"

"For a time, yes," he answered; "listen—next week you must meet me here, and I will give you money to keep you in Melbourne for some time; then you must leave Ballarat at once and wait for me at the Buttercup Hotel in Gertrude street, Carlton; you understand?"

"Yes," faltered Kitty, nervously; "I—I understand."

"And you will come?" he asked anxiously, looking keenly at her, and pressing the little hand he held in his own.

"Yes," she whispered, clinging to him with dry lips and a beating heart; "I will come!" Then her overstrained nature gave way, and with a burst of tears she threw herself on his breast.

"My dear Bebe," said Vandelpoup, kissing her white cheek, "you must go home now, and get a little sleep; it will do you good."

"But you?" asked Kitty, in a low voice, as they walked slowly alone.

"Oh, I," said M. Vandelpoup, airily; "I am going to the Wattle Tree Hotel to see my friend Pierre off to Melbourne."

"You are now on your own responsibility, my friend," said Vandelpoup to Pierre, as he stood at the window of the railway carriage; "for we must part, though long together have we been. Perhaps I will see you in Melbourne; if I do you will find I have not forgotten the past," and, with a significant look at the dumb man, Vandelpoup lounged slowly away.

The whistle blew shrilly, the last good-bys were spoken, the guard shouted "All aboard for Melbourne," and shut all the doors, then, with another shriek and puff of white steam, the train, like a long, lithe serpent, glided into the rain and darkness with its human freight.

"At last I have rid myself of this dead weight," said Vandelpoup, as he drove along the wet streets to O'Leary's Hotel, where he intended to stay for the night, "and can now shape my own fortune. Pierre is gone, Bebe will soon follow, and now I must look after myself."

Kitty left a note saying she was going down to Melbourne to appear on the stage. Meanwhile, the man who was the primary cause of all this trouble was working in the office of the Pactolus claim with a light heart and cool head. Gaston had really managed to get Kitty away in a very clever manner, inasmuch as he never appeared publicly to be concerned in it, but directed the whole business so

cretely. He had given Kitty sufficient money to keep her away for some months in Melbourne, as he was in doubt when he could leave the Pactolus without being suspected of being concerned in her disappearance. He also told her what day to leave, and all that day stayed at the mine working at his accounts, and afterward spent the evening very pleasantly with Madame Midas. Next day McIntosh went into Ballarat on business, and on returning from the city, where he had heard all about it, he saw Vandelpoup come out of the office, and drew up in the trap beside the young man.

"Aha, Monsieur," said Vandelpoup, gaily, shooting a keen glance at Archie; "you have had a pleasant day?"

"Maybe yes, maybe no," returned McIntosh, cautiously, fumbling in the bag; "there's nothing much in the town, but I've gotten a letter or so from France."

"For me?" cried Vandelpoup eagerly, holding out his hands.

"Ah! for who else would it be?" grumbled Archie, giving the letter to him—a thin, foreign looking envelope with the Parisian postmark on it; "did you think it was for that blackvised friend of yours?"

"Hardly!" returned Vandelpoup, glancing at the letter with satisfaction, and putting it in his pocket. "Pierre couldn't write himself, and I doubt very much if he had any friends who could—not that I knew his friends," he said, hastily catching sight of McIntosh's severe face bent inquiringly on him.

Madame Midas was very much grieved at the news of Kitty's escapade, particularly as she could not see what motive she had for running away, and, moreover, trembled to think of the temptations the innocent girl would be exposed to in the metropolis. After tea, she spoke to Vandelpoup on the subject. The young Frenchman was seated at the piano in the darkness, striking a few random chords, while Madame was by the fire in the armchair. It was quite dark, with only the rosy glow of the fire shining through the room. Mrs. Villiers felt uneasy; was it likely that Vandelpoup could have any connection with Kitty's disappearance? Impossible! he had given her his word of honor, and yet—it was very strange. Mrs. Villiers was not, by any means, a timid woman, so she determined to ask Gaston right out, and get a decided answer from him, so as to set her mind at rest.

"M. Vandelpoup," she said, in her clear voice, "will you kindly come here for a moment?"

"Certainly, Madame," said Gaston, rising with alacrity from the piano, and coming to the fireside; "is there anything I can do?"

"You have heard of Miss Marchmont's disappearance?" she asked, looking up at him.

"Yes, Madame," he answered, in his calm, even tones.

"Do you remember the day I introduced her to you and you gave me your word of honor you would not try to turn her head?" pursued Madame, looking at him; "have you kept your word?"

"Madame," said Vandelpoup, gravely, "I give you my word of honor that I have always treated Mlle. Kitty as a child and your friend. I did not know that she had gone until I was told, and whatever happens to her I can safely say that it was not Gaston Vandelpoup's fault."

An admirable actor, this man, not a feature of his face moved, not a single deviation from the calmness of his speech—not a quickening of the pulse, nor the rush of betraying blood to his fair face—no! Madame withdrew her eyes quite satisfied. M. Vandelpoup was the soul of honor.

"M. Vandelpoup," said Madame suddenly, after they had been chatting for a few moments, "one thing you must do for me in Melbourne."

"I will do anything you wish," said Vandelpoup, gravely.

"Then," said Madame, earnestly, rising and looking him in the face, "you must find Kitty and send her back to me."

"Madame," said Vandelpoup, solemnly, "it will be the purpose of my life to restore her to your arms."

CHAPTER XIX.

There was great dismay at the Pactolus mine when it became known that Vandelpoup was going to leave. The only two who were unfazedly glad at Vandelpoup's departure were Selina and McIntosh, for these two faithful hearts had seen with dismay the influence the Frenchman was gradually gaining over Madame Midas.

For some time past McIntosh had not been satisfied with the character of the ground in which he had been working, so abandoning the shaft he was then in, he had opened up another gallery to the west, at right angles from the place where the famous nugget had been found. The wash was poor at first, but McIntosh persevered, having an instinct that he was on the right track. A few weeks' work proved that he was right; for the wash soon became richer; and as they went farther on toward the west, there was no doubt that the long lost Devil's Lead had been struck. This gave Madame Midas a weekly income of one thousand one hundred pounds, so she now began to see what a wealthy woman she was likely to be.

Vandelpoup congratulated Madame Midas on her luck when he was going away, and privately determined that he would not lose sight of her, as, being a wealthy woman, and having a liking for him, she would be of great value. He went to Ballarat, and put up at the Wattle Tree Hotel, intending to start for the metropolis next morning; but on his way, in order to prepare Kitty for his coming, sent a telegram for her, telling her the train he would arrive by, in order that she might be at the station to meet him.

After his dinner he suddenly recollected that he still had the volume which Dr. Gollipeck had lent him, so, calling a cab,

he drove to the residence of that eccentric individual to return it.

When the servant announced M. Vandelpoup, she pushed him in and suddenly closed the door after her, as though she was afraid of some of the doctor's ideas getting away.

"Good evening, doctor," said Vandelpoup, laying the book down on the table at which Gollipeck was seated; "I've come to return you this and say good-by."

"You read this?" he said, laying his hand on the book; "good, eh?"

"Very good, indeed," returned M. Vandelpoup, smoothly; "so kind of you to have lent it to me—all those cases quoted were known to me."

"The case of Odele Blondet, for instance, eh?" asked the old man sharply.

"Yes, I was present at the trial," replied Vandelpoup, quietly; "the prisoner, Octave Braulard, was convicted, condemned to death, reprieved and sent to New Caledonia."

"Where he now is," said Gollipeck, quickly, looking at him.

"I presume so," replied Vandelpoup, lazily. "After the trial I never bothered my head about him."

"He poisoned Adele Blondet," said the doctor.

"Yes," answered Vandelpoup, leaning forward and looking at Gollipeck. "He found she was in love with an Englishman, and poisoned her—you will find it all in the book."

"It does not mention the Englishman," said the doctor, thoughtfully tapping the table with his hand.

"Nevertheless he was implicated in it, but went away from Paris the day Braulard was arrested," answered Vandelpoup. "The police tried to find him, but could not; if they had it might have made some difference to the prisoner."

"Let me see," said Vandelpoup, looking up reflectively; "I almost forget it—Kestroke, or Kestrike, some name like that. He must have been a very clever man to have escaped the French police."

"Ah, hum!" said the doctor, rubbing his nose; "very interesting indeed; strange case."

"Very," assented M. Vandelpoup, as he arose to go. "I must say good-by now, doctor; but I'm coming up to Ballarat on a visit shortly."

"Ah, hum! of course," replied Gollipeck, also rising, "and we can have another talk over this book."

"That or any other book you like," said Vandelpoup, with a glance of surprise; "but I don't see why you are so much taken up with that volume; it's not a work of genius."

"Well, no," answered Gollipeck, looking at him; "still, it contains some excellent cases of modern poisoning."

"So I saw when I read it," returned Vandelpoup, indifferently. "Good-by," holding out his hand, "or rather I should say au revoir," and Vandelpoup walked out of the room with a gay smile, humming a tune.

"He is suspicious," muttered the young man to himself, thoughtfully; "although he has nothing to go on in connecting me with the case. Should I use the poison here I must be careful, for that man will be my worst enemy."

(To be continued.)

MARKET DAY IN NORMAN TOWN.

Women of Valognes Do Their Own Buying and Bargaining.

All the women of Valognes do their own marketing and some of the well-known fish women and farmers' wives who come in from the country with poultry would be quite hurt if Madame la Comtesse didn't come herself to give her orders and have a little talk. This morning I have been to market with Countess Florian, relates a writer in Scribner's Magazine. The women looked so nice and clean in their short, black, heavily plaited skirts, light white caps and handkerchiefs, plumed over their bodies. The little stalls went all down the narrow main street and spread out on the big square before the church. The church is large, with a square tower and fine dome—nothing very interesting as to architecture.

Some of the stalls were very tempting and the smiling, red-checked old women, sitting up behind their wares, were so civil and anxious to sell us something. The fish market was most inviting—quantities of flat, white turbot, shining silver mackerel and fresh crevettes piled high on a marble slab with water running over them. Four or five short-skirted, bare-legged fisher girls were standing at the door with baskets of fish on their heads. Florian joined us there and seemed on the best of terms with these young women. He made all kinds of jokes with them, to which they responded with giggles and a funny little half courtesy; half nod.

Both Florians spoke so nicely to all the market people as we passed from stall to stall. The poultry looked very good—such fat ducks and chickens. It was funny to see the bourgeois of Valognes all armed with a large basket, doing their marketing; they looked at the chickens, poked them, lifted them so as to be sure of their weight, and evidently knew to a centime what they had to pay. I fancy the Norman manager is a pretty sharp customer and knows exactly what she must pay for everything. The vegetable stalls were very well arranged—the most enormous cabbages I ever saw. I think the old women who presided there were doing a flourishing business.

A Matter of Figures.

"Yes," said Farmer Cornblossel, "long about July the population of this 'ere town just doubles up."

"Summer boarders or green apples?" asked the new arrival innocently.—Boston Transcript.

Nicknames of Statesmen.

The nickname with the British public for Balfour, lately premier, is "Moose Fanny," and that for Joe Chamberlain is "Monocle Joe."

Helps Convalescent.

One of the greatest pleasures you can give a convalescent is to sit and sympathize with him while he tells you how sick he is.

FARM GARDEN

The auto driver and the farmer exchange compliments—each thinks the other a hog.

The incubator that is well managed has but little time to give to the race suicide problem.

A man who has not farmed in one of the eastern states can scarcely understand the damage that timber squirrels can do to growing corn.

If the hay is lightly thrashed and well shaken to rid it of dust, it will be far better not only for the horses afflicted with heaves, but for all horses.

Some men try extensive farming with intensive profit. It is better to have these conditions reversed. Intensive farming usually brings extensive profits.

Are you doing all you can to improve your pastures? It is easy to lose sight of this important feature of farming in attempts to make the cultivated fields produce large yields.

He that does not enjoy feeding sheep had better quit the business, for he cannot possibly make a success of it, any more than a family can be happy without family love in its midst.

Some of our leading orchardists are looking back into ancient history to learn what they can about the new seedless apple. Isn't that queer—looking into ancient history for new things?

There ought to be a brisk demand these days for the old-fashioned bacon our forefathers used to make. "The old-fashioned bacon, the uncanvassed bacon, the well-smoked bacon our dads used to make."

See that the hens have plenty of grit. Break up some rock, old corks or dishes, moderately flung, if there is not plenty of coarse sand or fine gravel in the ground, and put in where they can get it all the time.

A farmer in one of the western states advertises in city papers that he will engage himself to "haul automobiles out of the mud at reasonable prices." This is a new vocation, and probably could be made a profitable one.

The feed should be good and free from aromatic substances. If these aromatic foods are used they should be employed according to those methods which will not cause odors or flavors to appear in the milk.

The kind of lead pencil farming that we should favor is that use of the lead pencil which will admit of a knowledge of the cost of every crop and the cost of the production of every animal. By this use of the pencil it will be easy to figure the rest.

A breed of general-purpose horses can be produced by a careful selection and combination of different blood lines and a continuous breeding to a type for two or three centuries, but the shortness of men's lives and small prize to be gained have thus worked against the development of such a breed.

Some good housewives that we know of keep a supply of canned vegetables and canned meats on hand so that in time of emergency they may have some source to which they may turn. The fruits, vegetables, fish and meat which come this way can be converted quickly into many delicate and palatable dishes, and they are always sure to hit the popular appetite.

Tests show that a large number of varieties of cowpeas are adapted to orchard use, but the most desirable for Southern Missouri seem to be the Whippoorwill, Clay and Black. It is well to keep in mind that one of the principal objects of cultivation is to hold the moisture in the soil. It is well established that cultivated lands retain moisture, while uncultivated soon dry out to a considerable depth.

Cure for Horse Distemper.

A condition powder made up of the following drugs is good for horses afflicted with distemper: Eight ounces of iron sulphate, 1 ounce of pulverized gentian, 4 ounces of pulverized ginger and 5 pounds of oilmeal mixed thoroughly. The dose of this mixture is a tablespoonful three times daily in ground feed.

Using Dips on Sheep.

There are something like twenty-five different sheep dips on the market, and most if not all of them are reliable. As is the case with many other things that are manufactured carelessly, as they must be to retain their reputation, these dips are to be preferred to the mixture made at home of lime and sulphur.

A Safe Crop.

Sweet corn is one of the safe crops for the farmer near a large town. When the corn is high in price it can be sold

at a good profit, but when, as during the present season, sweet corn is cheap and plenty, it is still a paying crop to feed to milch cows. A Worcester County milk farmer estimates the value of large sweet corn at five cents a dozen simply as a milk producer.

Fertilizers.

A man must use fertilizers intelligently or he will throw away a great deal of money upon them. It is absurd for a farmer to purchase a fertilizer and put it upon land that he does not know needs fertilizers. A man should not expend a dollar in fertilizers until he knows what kind he needs. If his land is rich in a certain element he will but throw money away if he buys fertilizers to put on his land. Wasting money in this way is one of the penalties of not knowing.

Foolish Exporters.

In 1880 the United States exported 30,000,000 pounds of butter and 12,000,000 pounds of cheese, says a consular report. Twenty-five years later, in the calendar year 1905, this country exported 10,000,000 pounds of butter and 8,000,000 pounds of cheese. This tremendous decline, notwithstanding the increased demand abroad, was due to the methods followed by some American exporters, who shipped adulterated butter, sold oleomargarine for butter, and used similar methods in the exportation of cheese.

The Silo Pays.

The value of a silo is hardly known in some of our dairy districts. Many farmers in the dairy business, when one speaks to them about a silo, will say it is easy enough to talk silo on paper, but it is not profitable to build one.

I will say that the economy in feeding a cow is not in saving feed. The more you can get her to eat and digest the more she will make for her keeper.

If you feed little you lose the value of that, but if you feed generously she makes you a profit.

The first thing is to procure feed and a place to keep it. In having a silo your feed is cut and put in at a time when it is in the best condition.—Kimbball's Dairy Farmer.

Packing Butter for Winter.

All housekeepers know the value of butter in midwinter. They who have butter in summer might just as well be bountifully supplied in winter, states a West Virginia writer. Try the following plan, which has been tested and found satisfactory. Procure several nice clean jars, new ones are preferable. After the butter is worked, let it stand for perhaps an hour, then work again, and so on until sure that there is absolutely no trace of water or milk in it. Now fill the jars and cover the top well with dry, clean salt. Place a cloth over the jar to keep salt in its place and turn jar upside down on a clean piece of slate. Let remain in this condition until wanted for use.

Butter as a Food.

Butter is a hydro carbon, and all excesses of it are stored up as fat in the body. It gives energy and power to work to those who eat heartily of it. For any one afflicted with consumption butter cooking, if plenty of fat can be digested, is one of the best ways of curing the disease should it be in its early stages or of keeping it at bay if advanced. It is not economy to spare the butter at table even to the healthy people. Butter is not a simple fat composed merely of one sort. It is a mixture of no less than seven different sorts of fats, and no more complex oil can be taken than this. For dyspeptic and liverish people good bread and butter, along with fruit, should invariably take the place of pie, pastry and biscuits. Pastry for such people is only another name for poison, and biscuits are as often as not baked with lard.

Fruit Drying Square.

At this time of year we find many people drying their fruits as a means of preserving them. Two methods are actively employed, sun drying and evaporating. The former method is most universally used, even by people who have evaporating machines, because of the peculiar flavor some fruits obtain by drying in the sun, and also because oftentimes the fruit must be attended to faster than the evaporators can take it. The great annoyance caused by sudden showers make sun drying undesirable in many instances. When a shower comes up the fruit must be protected from the rain, or it is likely to sour or otherwise injure. The taking of fruit into the house or shed is not always very easily done, neither is it always possible to cover the scaffold where they are drying satisfactorily. An easy method of taking care of them is to construct a square about 8x4 feet in size, which is made by taking two pieces about 3 inches wide to use for sides, flooring these with light material and putting an inch strip to serve as end pieces. The end pieces serve to hold the fruit on the square while it is being moved about. When a shower is approaching these squares can be stacked under a roof of any kind, placing them on one another alternately lengthwise and crosswise. This allows the air to pass through, and they can stay in the shade for days without injuring.—A. M. Latham, in Agricultural Epitomist.

THE WEEKLY HISTORIAN

1428—Siege of Orleans begun.

1042—First commencement held at Harvard college.

1702—Battle of Vigo.

1700—City of Berlin taken by combined Russian and Austrian forces.

1777—Kingston, N. Y., burned by the British.

1781—Americans attacked Yorktown.

1707—Battle of Camperdown.

1800—Attempted assassination of Bonaparte.

1800—Battle of Saalfeld, Saxony; Prussians defeated by French.

1815—Napoleon Bonaparte landed at St. Helena to begin his exile.

1822—Brazil proclaimed independence.

1831—Anderson, an English vocalist, driven from the stage of the Park theater, New York, for disrespectful remarks concerning the United States.

1848—Martial law proclaimed in Cape Town.

1801—Confederate steamer Theodore escaped from Charleston, S. C., with Mason and Sillid on board.

1862—Confederate cavalry under Gen. Stuart entered Chambersburg, Pa.

1803—Wheeler's famous Confederate cavalry met with defeat at Farmington, Tenn.

1808—Beginning of Cuban struggle for independence.

1871—President Grant summoned Ku-Klux-Klan of South Carolina to disband. The great Chicago fire continued to rage and destroy.

1872—William H. Seward, American statesman, died. Archbishop Bailey installed as Primate of the Catholic church in the United States.

1873—Ex-Senator Pomeroy shot by ex-Congressman Conway in Washington.

1881—Arrest of Charles Stewart Parnell.

1884—Adoption of the Meridian of Greenwich. Parliament building in Quebec wrecked by dynamite.

1803—Dean Richmond foundered in Lake Erie; 18 lives lost.

1894—Wijiu captured by the Japanese.

1808—Emperor of Germany started on trip to the Holy Land. Powers refused to permit Turkey to maintain garrisons in Crete.

1890—Transvaal war began. Public reception in Boston in honor of Admiral Dewey.

1902—President Roosevelt appointed a commission to settle anthracite coal strike.

1904—Frederick Augustus III. ascended the throne of Saxony. United States battleship Georgia launched at Bath.

1905—President Roosevelt conferred with leaders in college athletics with a view to improving standards. Sir Henry Irving died.

A Self-Governing School.

An experiment in pupil self-government has been in progress in a village school in Macon county, Mo. In the main room, where the older pupils assemble, the self-governing class gathered round the table and elected its own officers, and the principal used a phonograph to dictate problems, so that the pupils should be relieved entirely of the supervision of the teacher. As the machine was set in motion the pupils copied the problems and discussed or worked out the answers, which were then tabulated by the teacher and turned over to the principal. Not one pupil was returned to the regular classes from failure to keep up with the studies. This year the experiment is to be extended to a number of other districts.

New York Hotel for Boys.

Under the management of Miss Mary Laidlaw Froudford, niece of the late Mrs. Laidlaw, who devoted much money to the helping of poor boys, has just been opened for homeless boys has just been opened at 355 West Twenty-seventh street, New York City. At the outset there were eight patrons, self-supporting office boys or messengers, and for the remaining six vacancies many applications were on file. The establishment is not to be regarded as a charity. Each boy pays according to his means, and this entitles him to a room of his own. The public, however, is invited to contribute toward the expense fund and larger quarters will probably be secured.

An Eleven-Year-Old Freshman.

Norbert Weiner, at the age of 11, has entered the freshman class of Tufts college, and is said to be the youngest collegian in the country. He is the son of Leo Weiner, assistant professor of Slavonic languages at Harvard. The boy knew how to read at 3 and was reading Darwin and Huxley at 8.

Medical Inspection for Students.

According to the School Journal it is estimated that the expense of operating the new inspection law in Massachusetts public schools is about \$25 per 1,000 inhabitants, in the larger cities, but that in smaller places where the doctor comes only when sent for the expense is \$11 per 1,000. The law authorized the school board of each city or town to appoint a school physician or physicians, and that the sight and hearing of all be tested annually by the teachers. The expense is to be borne by a local appropriation.

NEIGHBORING TOWNS.

LAKE VILLA, ILL.

Edgar Kerr is spending a few days in Chicago.

Miss Emma Wilt is visiting in Waukegan this week.

Mrs. B. Ray and son Howard left for Rockford Tuesday on a business trip.

Miss Louise Laiman of Silver Lake has accepted a position in the depot restaurant.

We are glad to see that John McMahon's rheumatism will permit him to be out again.

Mace Poulton has returned to his duties as depot agent and feels much improved in health.

Dr. Hesselgrave was confined to the house with a slight illness the latter part of the week.

Mrs. Jacob VanPatten and son of Antioch were guests of Mrs. D. VanPatten over Sunday.

Mrs. Charley Comer has again leased the Cording farm and will spend another year with us.

Will VanPatten and Dr. Morrell were in Antioch Monday evening playing in the band at the republican rally.

Sidney Wallace is building a new cement block house on the lot which he recently purchased of Will Barnstable.

Carl Miller, arrayed in his best, slipped away to Chicago Monday, and a friend of his recently told us that before returning two hearts would beat as one.

James Kerr has taken over the express office and employed Mr. Duncan to attend to it. Hereafter the express business will be transacted at the hardware store.

Shelving and counters are being installed in the new Hamlin building and James Kerr will move his hardware store into the new building as soon as the work is completed.

The gentlemen will give their annual oyster supper at the church on Friday evening. Mr. Lowery of the East Side will wield the ladle in the kitchen and see that the excellency of the dish is unsurpassed.

On account of the bad weather few of the Lake Villa people were able to attend the Wilton reception at Antioch on Thursday evening, but all who did attend report an excellent time and congratulate the host and hostess on their success.

GRAYSLAKE, ILL.

Mrs. Shaffer has been suffering from a severe attack of lumbago.

Miss Wheeler entertained her sister from Chicago over Sunday.

Miss Lillie Turner spent the last of the week with friends in Waukegan.

Mrs. C. Washburn entertained her sister and husband from Chicago over Sunday.

Mr. and Mrs. Pete Bowers have returned from Oklahoma. Mrs. Bowers' health is some improved.

Chas. Kirtsinger and wife of Evanston moved into one of the Burge cottages here the last of the week.

Mrs. George Strang attended a birthday dinner in honor of her brother, Fred Hook at his home on Friday last.

Mr. and Mrs. J. Washburn returned the latter part of last week from a few days visit with relatives at Oak Park.

Those who attended the annual banquet of Waukegan Chapter, O. E. S., on Thursday evening report a fine time.

It is rumored that Mrs. Ormsby of Warren is contemplating the purchase of R. B. Godfrey's stock of merchandise at this place.

Mrs. Wm. Pester went as a delegate to Springfield on Monday to attend the Grand Chapter, O. E. S., which convenes there Tuesday, Wednesday and Thursday.

Mr. Cicero Allen and son Tait will leave in about two weeks for Texas where they have purchased several hundred acres of land. They intend to spend the winter there.

The Ladies Aid society will give a Halloween social in the parlors of the Congregational church on Tuesday evening, Oct. 30. There will be a Halloween amusements and a good lunch will be served for 10 cents.

MILLBURN, ILL.

Clarence Bonner was home over Sunday.

H. D. Hughes is moving his family to Gurnee.

A. H. Stewart has gone to Ohio for a week's visit.

N. D. Pratt conducted the services here again last Sunday.

Mrs. A. H. Stewart entertained Mrs. DeSwarte over Sunday.

Mr. and Mrs. C. B. Cummings visited last Friday with A. K. Bain.

Be sure and attend Mrs. Theo. VanAlstine's sale next Tuesday, Oct. 30.

Many from here attended the M. W. A. festival at Gurnee last Wednesday evening.

Mrs. Robertson, who has been visiting with Mrs. George Jamieson, has returned home.

Rev. A. W. Spafford will be home by next Sunday and will take up his regular duties.

Mrs. C. E. Denman and daughter, Mrs. W. G. McGuire, were Chicago visitors last Friday.

Mrs. Geo. Gerrity entertained Mr. and Mrs. Cooke of Ravenswood, a few days last week.

Medames H. E. Jamieson, A. K. Bain, G. B. Stephens and J. A. Thain were Chicago visitors Monday.

Mr. and Mrs. James Anderson of Lake Forest, visited with W. A. and J. H. Bonner last Saturday and Sunday.

RUSSELL, ILL.

Miss Nettie Gardner is on the sick list.

Wm. Oliver entertained company from Chicago and Richmond.

Many from here are attending the ball games at Racine and Kenosha.

George DeForris had the misfortune to lose a valuable horse last week.

Mr. George Alcock and family from Calisornia called on relatives here Monday.

Mrs. Mary Newell Taylor and little son from Florida expect to return home Saturday.

Mrs. Dr. Young and Mrs. W. H. Siver spent Thursday with Mrs. Ormsby at Gurnee.

Mr. and Mrs. Wm. Colby of Forest Glenn, visited over Sunday with I. O. Colby and family.

Mrs. Woodell and daughter Glenn from Wadsworth spent part of the week visiting relatives about Russell.

Mrs. E. M. Ames of Wadsworth, and sister, Mrs. Ellison from Milwaukee spent Wednesday with relatives here.

Edward Murray of Denver, Col., is spending some time with relatives here. He expects to return home soon.

Many of our farmers have bought home-stands in the western states and Canada and intend moving there next spring.

TREVOR, WIS.

Herbert Robbins was a Chicago passenger Monday morning.

Mrs. Tait of Milwaukee, spent part of last week with relatives.

Mrs. Fred Ames of Waukegan, spent Monday with Miss Patrick.

Mr. and Mrs. Newell Parks left Monday morning for Toulon, Ill., for a two weeks' visit.

Mr. and Mrs. Will Kruekman and son of Wilmett are visiting her parents, Mr. and Mrs. H. Patrick.

Medames Fuller, Pierce and Gray of Kalamazoo, spent part of last week with their cousins, the Patricks.

Mr. and Mrs. James Welch, who have been visiting Geo. Booth and family, left for their home in Nebraska Friday.

Auction Sales

The undersigned will sell at public auction at the stock yards at Antioch, Ill., on Saturday, Oct. 27, at one o'clock sharp, 75 head of cattle consisting of springers, heifers and steers. This stock is in first class condition and those wishing bargains should attend. Terms: A credit of six months will be given on good approved notes with interest at 6 per cent. per annum.

Usual terms.

Lunch at noon.

Susan VanAlstine, Prop. George Vogel, Auctioneer.

I will sell at public auction at my place 2 miles north of Salem on the town line road, on Tuesday, Oct. 30, commencing at 10 o'clock the following property: 10 cows about half coming in soon the rest between now and May 1, 1907, yearling heifer, yearling steer, 2 steer calves 10 mos old, 2 heifer calves 8 mos old, 2 heifer calves 4 mos old, Short Horn bull calf 8 mos old, brown Norman mare wt 1500, bay French Couch mare wt 1350, 36 breeding ewes, 3 yearling wethers, 18 lambs, wide tire wagon, road wagon, Deering horse rake, sulky plow, disc harrow, 2 sulky cultivators, Deering mower, (above machinery nearly new) Deering corn harvester, McCormick grain harvester, Oldish disc harrow, 3-section lever drag, Thomas harrow, seeder, 2 stubble plows, corn planter, 2 breaking plows, 2 sets double harness, 1 single harness, about 20 acres corn in shock, a quantity of hay and corn stalks.

Lunch at noon. Usual terms.

W. V. Cull, Prop. E. R. Wilson, Auctioneer.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Mo. Greatest restorative medicine on the globe. Sets stomach, liver and kidneys right, purifies the blood, and cures malaria biliousness and weaknesses. Wonderful nerve tonic. Price 50c. Guaranteed at J. H. Swan's drug store.

Home of Precious Stones.

The island of Ceylon is the most remarkable gem depository in the world.

True and tried friends of the family—DeWitt's Little Early Risers. Best for results and best to take. Rosy cheeks and sparkling eyes follow the use of these dependable little pills. They do not gripe or sicken. Sold by J. H. Swan.

Where America is Ahead.

Only 13 per cent of English cities under 7,000 population have trams. In the United States the percentage is just four times as large.

Foley's Honey and Tar cures coughs and colds and prevents pneumonia. Take no substitute. Sold by J. H. Swan.

Lepers at Large in America.

Dr. Isadore Dyer, the noted New Orleans specialist in leprosy, says that there are hundreds of people afflicted with that disease at large in America.

"Watch the Kidneys"

"When they are affected life is in danger," says Dr. Abernethy, the great English physician. Foley's Kidney Cure makes sound kidneys. Sold by J. H. Swan.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail.

Address Dr. Kilmer & Co., Home of Swamp-Root, Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Danger From The Plague.

There's grave danger from the plague of coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for consumption, coughs and colds. Mrs. Geo. Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents pneumonia, cures lagrippe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds. 50c and \$1. Guaranteed at J. H. Swan's drug store. Trial bottle free.

True Source of Worry.

It's easy to be content with what we have, it's what we haven't that worries us.—Anon.

If an article is imitated, the original is always best. Think it over, and when you go to buy that box of salve to keep around the house, get DeWitt's Witch Hazel Salve. It is the original and the name is stamped on every box. Good for eczema, tetter, boils, cuts and bruises, and especially recommended for piles. Sold by J. H. Swan.

Keeping London Streets in Order.

London has 8,000 streets which it cost nearly \$11,000,000 a year to order.

Bronchitis for Twenty Years.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." Sold by J. H. Swan.

As Your Light Shines.

Act well at the moment, and you have performed a good action to all eternity.—Lavater.

Baby had a little pain.

Father said, "That kid again!"

Mother gave her Cascasweet—

Father said, "It can't be beat."

Cascasweet is a vegetable corrective for the stomach and bowels of babies and children. Contains no opiates and the ingredients are on each and every bottle. Pleasing to take. Sold by J. H. Swan.

Preventies, as the name implies, prevent all colds and gripes when taken at the sneeze stage. Preventies are toothsome candy tablets. Preventies dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them. Preventies are thoroughly safe for children, and as effective for adults. Sold and recommended in 5 cent and 25 cent boxes by all dealers.

10 MORE DAYS

UNTIL THE
Opening OF THE New Globe Dep't Store
WAUKEGAN, ILLINOIS.

SATURDAY, NOV. 3

Is the date and it is one of such importance to the people of Waukegan and Lake County that every family should be represented at the reception which is planned for the opening. Kindly consider this a cordial invitation to yourself and invite your friends to come along. Souvenirs and music have been provided for the opening and we want all to avail themselves of the pleasure of a visit to the Best Lighted and Largest Store to be Found in a City the Size of Waukegan in the State

Owing to the fact that when purchasing our stock we anticipated the completion of our building in time for the full fall season, we propose right now to mark goods so low for this time of the year that they will move fast enough to make up for lost time :: :: :: :: :: ::

== WAIT ==

Until the first week in November before purchasing that fall or winter garment for man, woman or child, and we

Mr. and Mrs. Joe Yager arrived here from New York the latter part of last week and will spend a few weeks at Green-acre farm.

Mr. and Mrs. W. F. Kness who have been spending the summer at their cottage at Lake Catherine, returned to their home in Chicago on Tuesday of this week.

Marion Taylor, who has spent the past two years in Idaho, returned home the latter part of last week for a two weeks visit with his parents and other Antioch relatives and friends.

For rent—A well improved 120 acre grain and stock farm, with buildings, in Lake County near Wadsworth Ill. Can give possession March 1, 1907, or earlier if desired. Call on or address Martin Lux Wadsworth, Ill. 8w8

On account of the inclement weather only six of the members of the Eastern Star at this place attended the Past Master's night at Waukegan on Thursday evening of last week, but those who did go report a delightful time and were well paid for their efforts to attend.

It is reported that Cicero Allen, of Grayslake has purchased over 1,100 acres of land in Baylor County, Texas. Mr. Allen has traded in the residence where he now lives, also his threshing outfit and some live stock, on the deal. The property he has purchased is partly improved and is only one and one half miles from a railroad station. Mr. Allen expects to spend a part of his time on the Texas farm, but his family will remain in Grays Lake, for the present at least.

On Saturday afternoon of last week, an auto party composed of the members of a select club of Delevan, Wis., arrived in town with the expressed intention of holding a meeting at the home of the Messrs. Goodrich. They were a genial jolly crowd and were heartily welcomed and royally entertained by their hosts. Those present were: Supt. Walker, of the State Deaf and Dumb Institute; E. F. Williams, cashier Citizens' bank; A. H. Kendrick, cashier Latimer's bank; E. G. Barker, of the Barker Lumber Co.; C. A. Sage, proprietor of the Highland; and Howard Williams, jeweler, accompanied by their wives and Miss Mary Williams.

On Thursday evening of last week, Mrs. James Wilton gave a reception and dance at the opera house, in honor of her cousin Miss Bede Johnson who is visiting her from St. Paul. In spite of the unfavorable weather about one hundred guests were present. Hanneman's orchestra furnished the music and the younger members of the company tripped the light fantastic till the wee small hours of the morning. For those who did not care for dancing card tables were provided and the games were mingled with many a light jest and merry laughter. At about midnight dainty refreshments were served to which all did ample justice. Then the games and dancing were once more resumed and merry making held full sway until the early hours of the morning when with many regrets the merry party broke up, each and every guest declaring that Mr. and Mrs. Wilton were certainly a model host and hostess.

No danger of consumption if you use Foley's Honey and Tar to cure that stubborn cough. Sold by J. H. Swan.

Backache

gives woman some of her most miserable and wretched hours. Along with the backache, generally come headache, waist pain, falling feelings, irritability, nervousness and the blues. Have you these periodical troubles? If so, you may know that they are due to disease of some of the most important organs of your body, organs that should get help or, in time, through weakness, will wreck your health and life. Help them to health with

WINE OF CARDUI

WOMAN'S RELIEF

Says Mrs. Blanche E. Stephanou, of 1228 S. 42nd Ave., Chicago, "I suffered miserably for five (5) years with a constant pain in my back and right side and although my husband employed several of the best doctors in this great city, not one could give me relief. At last I took Wine of Cardui, which relieved my pain, prevented an operation and restored me to health." It is a wonderful curative medicine for all women's ills. Try it. E26

At all Druggists \$1.00

Miss Mary Blair is confined to her home on account of illness.

Born to Mr. and Mrs. John Palmer on Friday, October 19, a boy.

Susan VanAlstine will have an auction sale on Tuesday, October 30.

Mr. and Mrs. Fred Ames of Waukegan visited with Antioch relatives the fore part of the week.

Lee Middendorff was among the number of Grayslake people who started for Oklahoma on Saturday last.

The McHenry creamery has suspended until the management is assured of at least 8,500 pounds of milk per day.

Mrs. Lee Hill of Sioux Rapids, Iowa, who has been visiting relatives here for the past few weeks returned to her home on Tuesday.

J. A. Strang will have an auction sale of seventy-five head of cattle, at the Antioch stock yards on Saturday afternoon, October 27, commencing at one o'clock sharp.

The Barden store Kenosha has just installed in its big new store a complete mail order department and will on request send, post paid, a copy of our new fall and winter catalogue. 9w2

There will be a demonstrating social given under the auspices of the Ladies Aid of the M. E. church in the near future. This will be something entirely new and out of the ordinary. Watch for further announcement.

The discussion over postal savings banks has developed the fact that several Elginites have been using the mail order department of the post office as a savings bank. Under the department rules it is allowable to take out a money order and leave the money at the postoffice for one year when it must be drawn out or another purchased. At one time a man had as much as \$700 deposited in this way.

On Friday evening of last week the first number on the lecture course given under the auspices of Epworth League was given at the church by the Houstons and was well attended and thoroughly appreciated. Mr. Houston is certainly a novel entertainer and his imitation of various musical instruments was simply marvelous. Mrs. Houston is an artist in her line and her readings called forth loud applause, and if this number is a sample of what is yet to come we predict that the course this winter will be one of the best ever given in Antioch.

Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and rough of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair grower, a perfect hair tonic. The hair stops coming out, grows faster, keeps soft and smooth. Ayer's Hair Vigor cures sick hair, makes it strong and healthy.

For backache and rheumatism use De Witt's Kidney and Bladder Pills. Cleanse and purify the blood. A week's treatment for 25c. Sold by J. H. Swan.

Beauty from Within.

Though we travel the world over to find the beautiful, we must carry it with us or we find it not.—Ralph Waldo Emerson.

Never Ask Advice.

When you have a cough or cold don't ask what is good for it and get some medicine with little or no merit and perhaps dangerous. Ask for Foley's Honey and Tar, the greatest throat and lung remedy, it cures coughs and colds quickly. Sold by J. H. Swan.

Time Need Not Wait for Him.
Thomas A. Edison has never carried a watch. He never cares, he says, what time it is.

The new pure food and drug law will mark it on the label of every cough cure containing opium, chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe and reliable cough cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. All dealers.

KILL THE COUGH AND CURE THE LUNGS

WITH Dr. King's New Discovery FOR CONSUMPTION COUGHS and CROUPS Price 50c & \$1.00 Free Trial.
Surest and Quickest Cure for all THROAT and LUNG TROUBLES, or MONEY BACK.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-whole bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man. If physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Bloating Complexion, etc., is indeed prompt and satisfactory.

No cringing, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Lax-ets

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and calarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.
Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.
Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

LATEST NEWS FROM EVERY LAND.

CIRCLING THE GLOBE.

Masked bandits held a crowd of excited citizens at bay for three hours at Sawyer, N. D., while part of the gang blew a safe in the Sawyer State bank and took from it \$1,500. Posses are scouring all northern North Dakota in search of the robbers.

The Wisconsin State board of assessors has remitted all State taxes with the exception of a small school tax, as the State treasury has on hand sufficient money to meet fixed expenditures without additional funds this year. Railroads now foot the bills.

Secretary Shaw announces a plan to increase bank note circulation by \$18,000,000, for which purpose he will accept securities other than government bonds for deposits in national banks, and the bonds thus released may be used to secure additional circulation.

The problem of cheap power for transportation has been solved, says Thomas A. Edison in an interview at his home in Orange, N. J., describing his new storage battery, which he asserts may be sold for \$200 and run at a low cost for fifteen years without repairs.

Albert Croissant, president of the Croissant-Bowman Stationery Company, who was shot down on the street in St. Louis by his brother, Edward Croissant, died at the city hospital. Edward Croissant, who is 27 years old, is held at the hospital for observation regarding his mental status.

The first news of a terrible hurricane that visited the towns of Rutan, Tola, Ullila, Colorado and El Provenca, Honduras, on Oct. 12, has been brought by the Norwegian steamer Harald. A number of vessels were wrecked, several destroyed, and buildings in each of the foregoing towns badly damaged. The loss to the owners of the fruit plantations will reach almost \$1,000,000.

O. B. Heyworth, a well-to-do farmer living seventeen miles north of Gage, Ok., shot and killed his wife, two daughters, aged 22 and 18, and a son aged 20. He then turned the weapon on himself, inflicting a mortal wound. Family trouble was responsible for the tragedy. Heyworth returned home drunk from Guthrie. He was sullen and went directly to his room, where his wife was asleep. The occupants of the house were suddenly awakened by shots. Young Heyworth was the first to investigate. He was shot down by his father before he had time to call for help and two girls were killed as they rushed from their room.

By the premature explosion of a 6-months-old calf partly filled with dynamite, James Tatman, a farmer living near Topeka, Kan., was seriously injured. The calf found three sticks of dynamite, which Tatman was using to blast a well, and was chewing it. Tatman had started to the top of the well to bring down the dynamite. He hurried forward, shouting and waving his arms in a frantic effort to drive the calf away. It had chewed a dynamite can with the rest of its meal and an explosion followed. Tatman was knocked back into the well, which was twelve feet deep. No bones were broken, but he was hurt internally and may not recover.

NEWS NUGGETS.

The New Orpheum theater, built by the Orpheum Theater Company, has been opened in St. Paul.

Billy Vice, the defaulting Union Pacific clerk, who has been sought since May, 1903, was arrested at Madeira, Cal.

Fire has destroyed the bank head at Reservoir colliery at Glace Bay, N. S., throwing 1,100 men temporarily out of employment.

In an endurance race between balloons at Pittsfield, Mass., the winner sailed fifty-seven miles, beating competitor by twenty-seven miles.

Fifteen persons were injured in St. Louis in two street car collisions, all of them suffering cuts and bruises, but none was dangerously hurt.

Former United States Senator Burton surrendered himself at the prison at Ironton, Mo., and began to serve his sentence of six months' imprisonment.

Isaac Wolff, successful merchant and known as the "newsboy's friend" because of his annual Thanksgiving dinners to the waifs, died suddenly in Chicago.

Five robbers blew open the safe of the Bank of Vergennes, Ill., secured \$100 in cash, shot and mortally wounded Abraham Kimmel, a merchant, and escaped.

In a bloody race war at Gibson, Ind., in which fifty Greeks and Italians employed in the construction of the New Indiana Harbor railroad yards took part, one man was fatally stabbed and ten others hurt.

A fast Northwestern train, east bound, struck a carriage near Lowden, Iowa, containing Mrs. Charles Luett and two children and Mrs. Luett's brother-in-law, William Luett. All were killed except a baby girl.

Anna Held reported to the police that she had been robbed of \$280,000 in jewelry while on a train entering Cleveland. The police declare the robbery is not of the press agent variety, and they are bending every effort to recover the valuables.

Blizzards of unusual severity and terrific rainstorms have been raging from the eastern slope of the Rocky mountains to the Sierra Nevada. Property losses that will mount into the hundreds of thousands of dollars have been entailed.

Statistics prepared by the United States geological survey show that in 1905 the value of natural gas produced and sold exceeded that of any previous year by \$3,065,000. The total value of the gas produced and sold was \$41,532,855.

A. V. Manning, cashier of the McDonald County bank at Pineville, Mo., exchanged shots with two robbers who he encountered at work at the bank. No one was hurt and the robbers escaped without securing any booty. The bank was wrecked by a charge of dynamite set off by the robbers.

STORM SWEEPS THE WEST.

Great Property Damage and Suffering Caused.

Scores of sheep herders, cattlemen and farmers were caught in the worst blizzards that have swept over the Rocky mountain region in years, and it is feared there has been great loss of life. It is known thousands of sheep and cattle have perished. The storm raged in Colorado, Wyoming, New Mexico and Utah. The railways were seriously blocked. Considerable damage resulted in Las Vegas, Socorro, Albuquerque and the smaller towns of New Mexico.

The Union Pacific Railway officials carried on a desperate fight to keep the line clear from Cheyenne, Wyo., to Salt Lake. West of Green River, Wyo., the road was so blocked that the officials could not tell when the trains would be able to make their way through the mountainous drifts of snow.

In Utah the snow was swept along by a hurricane that did great damage in Salt Lake City. In addition to loss of life, property over a wide area was devastated. Fire fanned by the gale wiped out the new plant of the Utah Packing Company and damage of \$250,000 resulted. The packing plant had just been completed at a cost of \$100,000 and was to have been put in use in a few days. In Ogden one man was killed by a flying plank.

In the storm which swept over the entire Republic of Salvador 100 persons were drowned in Coatepeque alone. A vast quantity of sulphur water was thrown out of the Chulo volcano, inundating the town of Panchimalco and killing most of the inhabitants. From other points similar reports of horrible devastation are received. The schooner Axelene with a number of passengers on board was lost. Piminto and other towns have been swept away by the floods and scores of bodies were carried down the streams.

News of a terrible West Indian hurricane which visited the towns of Rutan, Tola, Ullila, Colorado and El Provenca, Honduras, was brought to Mobile, Ala., by the Norwegian steamer Harald, carrying a cargo of fruit. A number of vessels were wrecked and buildings in each of the towns mentioned were damaged. The loss to the owners of fruit plantations will reach almost a million dollars.

The British schooner Southern Queen was thrown on the beach at Rutan and went to pieces in less than an hour. A tidal wave accompanied the hurricane and swept everything before it. Ten thousand bunches of bananas were reported swept into the sea at Rutan. The officers of the steamer say it will be a month before some of the steamers will be able to get any fruit.

TRADE OF CUBA.

Island's Foreign Commerce Is \$200,000,000 a Year.

The bureau of statistics of the Department of Commerce and Labor has issued a bulletin on the foreign commerce of Cuba, showing that it aggregates more than \$200,000,000 per annum, the actual figures being given as follows:

Imports, \$85,000,000, and exports, \$110,000,000. Of the imports 45 per cent were in 1905 drawn from the United States, and of the exports 86 per cent were sent to the United States. There has been a steady gain in the share of the imports drawn from this country, while the share of exports sent to the United States in 1905 was 86 per cent. Of the exports sugar alone amounted to \$63,000,000; tobacco, crude and manufactured, \$27,000,000, and fruits about \$3,000,000. Of the imports cotton manufactures were in round terms, \$9,000,000; breadstuffs, including rice, \$9,000,000; cattle, horses and mules, \$7,000,000; meats, \$7,000,000; machinery, \$6,000,000; manufactures of iron and steel not classed as machinery, about \$4,000,000; leather and manufactures, \$3,500,000; wines, malt liquors, spirits and other beverages, about \$3,000,000; manufactures of fibers, nearly \$3,000,000; vegetables, nearly \$2,500,000; wood and manufactures thereof, \$2,000,000; oils and fats for industrial purposes, \$1,500,000; dairy products, a little less than \$1,500,000; fish, \$1,250,000; paper and manufactures thereof, \$1,000,000; wool and manufactures thereof, \$1,000,000; and glass and glassware, a little less than \$1,000,000.

Of the exports nearly all of the sugar and a large proportion of the fruits are sent to the United States and the exports of tobacco are divided between the United States and Europe, and as a result 87 per cent of the total exports go to the United States.

Building the Highest Bridge.

The American Inventor says that work is now in progress on a suspension bridge over the famous "Royal gorge" of the Arkansas river, in Colorado, at a point where the channel is only 50 feet wide at the bottom and 230 feet wide at the top. This bridge will span the river 207 feet above the surface of the water, and will be, therefore, by far the highest bridge in the world. The material will be of flat steel and steel cables, the curved girders finding secure attachment in the solid sides of the canyon. The floor of the bridge will be of plate steel 1 1/2 inches thick, to afford visitors the pleasure of looking down the chasm. On each side will be strong, high steel railings. The bridge is part of an electric railway scheme, and cars from Canyon City and Florence will run over it. The Denver and Rio Grande tracks are at the bottom of the gorge.

Teachers as Politicians.

Dr. Elmer E. Brown, the new United States commissioner of education, spoke at the open exercises of the school of pedagogy of the New York university, and among other things exhorted members of the school to be politicians. He explained that he would not have them exercise the lesser arts of politics, but that they should be utopian in pursuit of the larger public good. He spoke of the danger of materialism as one that education must meet and resist.

FRAULEIN KRUPP MARRIED.

Although Kaiser Was Present, Simplicity Marked Ceremony.

At Essen, Germany, in the little chapel erected especially for the purpose on the magnificent grounds of the Krupp mansion, the religious ceremony was performed which made Bertha Krupp, the richest woman in the world, the bride of Lieut. Gustav Von Bohlen und Halbach, a penniless German noble. The civil ceremony which legally made the couple man and wife was performed Saturday afternoon.

Although the ceremony was performed in the presence of Kaiser William, representatives of many noble families and aristocratic personages generally, simplicity was the keynote of the whole wedding. Mingled with the aristocratic and royal wedding guests, also, were deputations of workmen representing the employees of the great Krupp industries. Fifty workmen were in the wedding party and they attended not only the church ceremony, but the wedding banquet. From the Krupp mansion the wedding party passed on foot to the chapel. Kaiser Wilhelm, who arrived on a special train just in time for the ceremony, took his place near the altar and the service began. When the ceremony had been concluded, Kaiser Wilhelm, wearing the uniform of a field marshal, saluted the bride, kissing her on both cheeks. He then congratulated the groom and spoke to Mme. Krupp.

A simple wedding banquet was served in the dining room of the Krupp mansion. In an eloquent speech in which he dwelt upon his friendship for the late Baron Krupp, Bertha's father, the Kaiser proposed the health of the young couple. After the banquet came an unusual ceremony which illustrates the sentiment of the Krupp family in always recognizing its humble origin. Bertha Krupp's great-grandfather, founder of the family, was

MRS. JEFFERSON DAVIS DEAD.

Widow of Confederate President Passes Away in New York.

Surrounded by her only surviving daughter and other relatives, Mrs. Jefferson Davis, widow of the president of the confederacy, passed away at the Hotel Majestic in New York, after an illness of a week from pneumonia following a severe cold which Mrs. Davis contracted upon her return from the Adirondacks, where she had spent the summer months. Mrs. Varina Howell Jefferson Davis was a native of Natchez, Miss., having been born there in 1820. Her early life was spent almost entirely at home, her

MRS. JEFFERSON DAVIS.

education being in the hands of private tutors and governesses, until 1845, when she married Jefferson Davis, who at the time of his marriage was a candidate for Congress. When her husband returned from the Mexican war a year later Mrs. Davis went to Washington with him,

SKINNED.

the village blacksmith. Among the buildings of the Krupp works still stands the humble smithy with the anvil at which this ancestor worked a century ago. A bronze bust of the first Krupp stands on the spot where he toiled as a laborer. It was to this spot that the bride made a pilgrimage to place a wreath on the bronze bust of the former blacksmith. After paying this tribute to the bride's forefather the couple started on their honeymoon.

In arranging her trousseau, the bride showed the same devotion to simplicity as in all the details of the wedding. The

where she lived from 1847 to 1861, during her husband's terms as Senator and Secretary of War.

Mrs. Davis was always a southern woman in spirit and temperament and strongly impressed with the confederate cause, and was of great assistance to her husband in the trying times of the Civil War. During the first years of Mr. Davis' imprisonment his wife was not permitted to be with him, but later she remained with him at Fortress Monroe. She acted as his amanuensis when he wrote his "Decline and Fall of the Confederate Government" and since his death in 1889 had published extensively in newspapers and magazines. She was also the author of a simple but touching biography of her husband, entitled "Jefferson Davis—A Memoir by His Wife."

Toledo Strike Injunction.

United States Judge Taylor of Toledo granted a sweeping injunction against the members of the machinists' association on strike at the Pope-Toledo Company, forbidding them from interfering in any way with the company's business or employees. The company complains that the local authorities had refused to give proper protection from the strikers. The injunction forbids any sort of threat or persuasion to induce employees to quit the company's service, and prohibits strikers congregating near the plant. While the strikers continued to use the threat of a national sympathetic movement, the local branch of the National Metal Trades Association sought to influence public opinion by large advertisements in the papers contending that the strike was not a question of wages or hours. They say they are prejudiced against no man because a member of the union.

Short News Notes.

Two trolley cars collided head on at Trenton, N. J., and several persons were injured.

The National Association of Retail Druggists in session at Atlanta, Ga., elected Charles F. Mann of Detroit president and Thomas V. Wooten of Chicago secretary.

Judge Anderson in the federal court at Indianapolis has set Nov. 12 as the date for the hearing of all delinquent cases in the suit of the United States against the National Association of Retail Druggists and others charging illegal restraint of trade and unlawful prevention of competition.

Members of the Lithographers' International Protective and Beneficial Association of the United States and Canada, who have been on strike at New York since last August in support of a demand for a forty-eight-hour week, will have the support of the International Federation of Lithographers of Europe.

OIL TRUST IS GUILTY

BUCKEYE JURY CONVICTS THE STANDARD COMPANY.

Charged with Conspiracy Against Trade—Penalty Is Fine and Imprisonment—Jurors Sing Hymns Before Reaching Verdict.

The first battle between the Standard Oil Company and the law is over and the company is defeated. A jury at Findlay, Ohio, brought in a verdict declaring the Standard to be guilty of violating the anti-trust laws of the State. The penalty is a fine of from \$50 to \$5,000, which may be repeated for each day of the offense, or imprisonment of six to twelve months. The oil company gave notice that it would file a motion for a new trial. The appeal from this court is to the Supreme Court of Ohio, by which tribunal no doubt the issue ultimately will be decided.

To the State the suit, the verdict and the ultimate appeal are important, especially because they initiate an entirely new method of procedure against alleged monopolies—that is, by information and affidavit instead of by grand jury indictment. The verdict was rendered at 4:35 o'clock Friday morning, after deliberation by the jury for thirty-two hours. The trial occupied seven days.

A touch of the dramatic marked the two closing hours of the deliberations. Hymns were sung during all but ten minutes of this time. This ten minutes came at the end and was occupied by the remaining juror who had stood out in explaining his position before surrendering to the majority. There was not the slightest levity about this religious service. The jurors had been without sleep many hours. As one familiar hymn after another was sung it became evident that a spirit of fraternalism was making headway in the small chamber in which the twelve men were locked, for the number of voices increased. Then "Home, Sweet Home," was sung, the national anthem followed and then came more hymns. A few minutes later the announcement was made that the jury had reached an agreement.

The result of this trial, so bitterly contested by the company, will be at any rate to justify the courts of Ohio and of other States in severely restricting the operations of organized wealth against individuals and in compelling the Standard Oil and all other corporations to manage their affairs in such a way as not to oppress and injure their competitors.

Ploughs with Headlights.

The steam plough has become a familiar object in western Kansas. Managers of the big implement houses say that about 600 are in use on the western and central Kansas plains wherever the fields are large enough and the ground level enough to permit their operation. All through the western portions of the wheat belt big traction engines, with wheel fires nearly a yard wide, are at work pulling the gang ploughs and turning up the soil at the rate of 30 acres a day, with two men working each outfit. These two men, working in the old way, could plough only about six acres a day, so that the steam plough has increased the efficiency of labor fivefold in this one character of farm work.

These outfits cost about \$1,000, but the expense of ploughing averages only about 40 cents an acre, as compared with an expense of 75 cents to \$1.50 an acre where the work is done by a man with a team. Therefore a farmer who owns 1,000 acres of wheat land can save enough in a few years to pay for a steam plough.

The rush to get the fall ploughing finished while the ground is in good condition has prompted some farmers to run their steam ploughs at night, with a great glaring headlight gleaming across the fields, as well as in the daytime.

The Palma days of Cuba are over.

Will the pure food law apply to boarding house hash?

That story that Sweden has cut off the Finns sounds right fishy.

There are already a lot of blowholes in the simplified spelling list.

The Roosevelt spelling looks like the English language in short skirts.

Philadelphia has to ask most every day: "Is my politics on straight?"

The North Pole must have turned the cold shoulder on Walter Wellman.

Russia has added religious freedom to its bouquet of unfulfilled promises.

A good hard day's work now and then would cure some of the Cuban insurgents.

The political rumor factory has started to work a little earlier than usual this campaign.

A Russian grand duke has to carry a searchlight in one hand and a bomb-catcher in the other.

As soon as the storm signals in the Gulf coast cities came down the relief signals went up.

What was the block-system doing when those Pennsylvania trains crashed together in New Jersey?

The Pennsylvania politician does not care who builds the Capitol, so long as he has the job of "furnishing" it.

Now that there is trouble again in Cuba, it seems time to hear more from our old friend, Mole St. Nicholas.

Oyster Bay may now take off its coat and high collar and sit out on the front porch with its feet up on the banisters.

So they are going to build the Panama canal by contract. And the Jamaica negroes will have to go to work or go home.

UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA.

Ex-Senator M. C. Butler.

Dyspepsia Is Often Caused By Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy For Dyspepsia.

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co. as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. In order to cure catarrh of the stomach the catarrh must be eradicated. Only an internal catarrh remedy, such as Peruna, is available. Peruna exactly meets the indications.

She Had Experience.

A tall woman, dressed in black, and with a very business-like manner, walked into a well-known London establishment and, declining the service of the shopwalker, made directly for the crepe counter, says the American Spectator. She had rather a thoughtful air as she examined the stock, and the obliging young shopman remarked at last:

"We have a large stock of crepes, madam. Just allow me to show you some new French goods, very popular just now for every kind of mourning. Now, these light crepes are all the rage for half-mourning for cousins. May I may I ask, madam," he added, hesitatingly, "for whom you are in mourning?"

"Husband," said the customer, briefly.

"Ah, yes; then I have just the material you require; the best style is—"

"Young man," interposed the woman, "I am much obliged for your explanation. You may know a lot about fashion, but as I buried my fourth husband yesterday, you may be sure I've got a grip on the subject."

Not of Much Account.

The lord chief justice of England used to sing in the choir of a parish church. A woman once asked the reverend to point out Sir Richard Webster as he then was. The reverend replied, "Well, ma'am, that's the vicar and them's the curates and I'm the vergor, but as for the choir, as long as they does their dooty we don't inquire into their hantecedents!"

A FOOD CONVERT.

Good Food the True Road to Health. The pernicious habit some persons still have of relying on nauseous drugs to relieve dyspepsia, keeps up the patent medicine business and helps keep up the army of dyspeptics.

Indigestion—dyspepsia—is caused by what is put into the stomach in the way of improper food, the kind that so taxes the strength of the digestive organs they are actually crippled.

When this state is reached, to resort to stimulants is like whipping a tired horse with a big load. Every additional effort he makes under the lash increases his loss of power to move the load.

Try helping the stomach by leaving off heavy, greasy, indigestible food and take on Grape-Nuts—light, easily digested, full of strength for nerves and brain, in every grain of it. There's no waste of time nor energy when Grape-Nuts is the food.

"I am an enthusiastic user of Grape-Nuts and consider it an ideal food," writes a Maine man:

"I had nervous dyspepsia and was all run down and my food seemed to do me but little good. From reading an adv. I tried Grape-Nuts food, and, after a few weeks' steady use of it, felt greatly improved."

"Am much stronger, not nervous now, and can do more work without feeling so tired, and am better every way."

"I relish Grape-Nuts best with cream and use four heaping teaspoonfuls at a meal. I am sure there are thousands of persons with stomach trouble who would be benefited by using Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in page. "There's a reason."

Filling the Mow Made Easy.
An easy method of filling mows with straw from the thrasher or with hay when partly full is as follows: Fasten a pulley on a rafter a little beyond beam. Nail two wide boards on the beams for the bundle to slide upon. The rope D having a hook upon one end, is placed under and around the straw and fastened. The bundle is then lifted by a man at D. When it reaches the top beam it swings in and is lowered into the mow. It can then

be placed where wanted and unfasted. This device is very handy and saves much time.

Macaroni Wheat.

Grant Robinson of St. Paul, Minn., has purchased 40,000 acres of land in Presidio county, Texas, which he will devote to the culture of macaroni wheat on a scale the largest ever attempted in the world. Extensive preparations are now going forward for the consummation of the plans of the capitalist. Seed for planting will be brought to this country from the Volga region of Russia.

The field will be cultivated on the very latest and most improved method of wheat farming. Monster stake plows will be utilized in breaking up the land; in fact, all of the latest types of farming machinery will be used on the plantation.

Mr. Robinson proposes to have the largest and best managed wheat farm in the world. He will build a system of tenant houses and supply the wants of his laboring men from a commissary. A school will be built for the children of the laboring men, as well as churches, etc. The farm is near Valentine, accessible to the railroad, and has proven under tests to be admirably adapted to the culture of macaroni wheat.

Sowing Spinach.

Early spinach is seeded in the fall. The ground should be plowed and made fine, plenty of well-rotted manure applied, and the seed sown in rows about 16 inches apart, which should be done with a seed drill having a small roller to cover and press the earth on the seeds, the depth of planting the seeds being about half an inch. The seed should be sown before cold weather sets in. When the plants are up let them grow until the ground is frozen, and then cover with straw, which should be removed early in the spring. Spinach is a very hardy plant and is seldom injured by cold.

Sheep Shearing Table.

Make a table with a hollow top, on which to lay the sheep. On each side of the board have a strap or rope with a snap hook to hold kicking sheep. The hollow top places the sheep at a disadvantage in trying to get up. This table is also very handy in tagging sheep; also in cleaning hogs, as the water will

FOR SHEARING SHEEP.

Soapuds for Plants.
The ordinary concentrated lye is really caustic soda, which is cheaper than potash. Soda lye makes hard soap and potash lye soft soap. Soapuds from soft soap makes a valuable fertilizer, but soda soapuds are not considered valuable, except for celery and asparagus, which are always benefited by soda in any form. The use of any kind of soapuds is beneficial in assisting to liberate plant food in the soil, however.

That "Seedless" Apple.
According to Professor Van Denham, an attempt is being made to have the post office department issue a fraud order against the promoters of the so-called "seedless apple." It is claimed that this apple is of very inferior quality, and is an old variety, originating in

Virginia, and generally considered of no commercial value.

Lime Nitrogen.

Every gardener likes to use a stimulating fertilizer to hurry the crops along. For this purpose nitrate of soda and sulphate of ammonia are most frequently employed. Nitrogen is the element chiefly sought and all known means of obtaining it cheaply have been tested. Lately much interest has been shown in lime nitrogen or calcium cyanamid. The results of recent experiments with this fertilizer indicate a high value for it. In some tests it has shown only 80 per cent of the effectiveness of nitrate of soda while in other tests it proved superior.

Lime nitrogen seems to be harmful if placed in direct contact with the seeds or roots of plants. It should preferably be mixed with the soil and applied from eight to fourteen days before seeding. It will then greatly hasten the growth and maturity of garden plants. Some gardeners have found that it is best to mix the lime nitrogen with the soil five to ten inches below the surface. The best results have been obtained by mixing the fertilizer with twice its weight of dry soil before applying. Lime nitrogen should not be applied at a greater rate than 135 to 270 pounds per acre.

Save Falling Leaves.

When the leaves begin to fall, do not burn them. Save all of them. They make the humus that by and by becomes soil, and is of immense value in all its stages of change. The most irrational work ever done by a human being is to take what nature has spent the whole summer in creating for him, and throw it back into its elemental conditions. These leaves are nature's contribution, and her very best contribution to man's wealth. They are naturally spread all over the lawns each year, as a winter protection; and after they have accomplished that mission they are worked over into a compost of humus. As a rule, do not rake them too completely off the lawns. The leaves you do take instead of burning, use for banking up buildings, for that will save coal; to cover or bank around plants; for stable bedding; or on the floors of henhouses, and in rooms where the hens may scratch during the winter.

Good Poultry Feeder.

Get a flat, empty grocery box and cut a section out of it, as shown in illustration. Nail a strip of thin board over the beveled portion and set the

SELF FEEDING BOX.

affair against the wall. Here you have a self-feeding box in which can be put grit, bone, charcoal or grain. One or two partitions put in before cutting out the beveled section would make two or three compartments, in which two or three of the articles could be kept at the same time. This is the easiest possible way to make a self-feeding box. Have the top or cover part of the box slanting, so that the fowls cannot roost on it.

Cold Storage for Farmers.

Putting first-class apples in cold storage for sale in late winter or early spring, is usually very profitable, says Farming. Other fruit and farm products may also be stored to advantage. The expense of a cold storage plant precludes its use by most fruit growers. Co-operation among farmers will sometimes be possible along this line. Granges and other farmers' organizations may do educational and practical work also. But available for every farmer are the refrigerator plants now found in almost every city. Rooms or space may be rented as one needs. Generally it is best to store in the city where it is intended to sell, that the produce may be on the ground in case of an advantageous market. Many a grower of fine fruit would be dollars ahead by availing himself of cold storage facilities.

The Secret of Success.

The superiority of butter made in Denmark is known the world over where butter is sold. Many investigations of Danish methods have been made and the conclusion is that cleanliness is the secret of the success of the Danish dairymen in making butter.

Fewer Horses Foundered.

Not so many horses are foundered nowadays as there used to be. Horses are foundered by overfeeding, feeding when heated, watered when heated, high living and no exercise, overdriving and suddenly cooling after the blood has been unusually heated.

Cause of Poor Butter.

The farmer has been scolded, shamed and thoroughly lambasted for not taking better care of his cream, and with what result? Poor cream continues to come, and bad butter continues to go.

A Hen's Work.

During the lifetime of a healthy hen she will lay from 300 to 500 eggs. Her best laying capacity is during her second year.

Pattern Department

UP-TO-DATE DESIGNS FOR THE HOME DRESSMAKER

Chic Little Eton.

There is no denying that short coats, like the popular Etons, are exceedingly smart and youthful-looking, and this largely explains their present vogue. They are worn both for separate wraps and as parts of the suits. Our model

PATTERN NO. 1502.

is a charming white voile, trimmed with white silk braid and a dear little collar embroidered in white with delicate threads of pink and green silk. The sleeves are short and full, coming just below the elbows—a fashion universally popular this season.

The above pattern will be mailed to your address on receipt of 10 cents. Send all orders to the Pattern Department of this paper. Be sure to give both the number and size of pattern wanted, and write very plainly. For convenience, write your order on the following coupon:

Boy's Muslin Drawers.

Nothing contributes more to a boy's comfortable dressing than well-fitting underwear, but unless this is made at home it is not always easy to obtain. In our model the waist-band is combined with the facing for the upper part of the drawers, thus doing away with extra seams and thicknesses about the waist. They may be made in full or knee-length, to wear with long or short trousers, and their making is so

PATTERN NO. 1530.

simple a matter that even the most inexperienced seamstress can have no trouble with them. They wear much longer and are far more satisfactory than ready-made garments at the same price.

The above pattern will be mailed to your address on receipt of 10 cents. Send all orders to the Pattern Department of this paper. Be sure to give both the number and size of pattern wanted, and write very plainly. For convenience, write your order on the following coupon:

Unfamiliar Facts.

Lord Curzon is the twenty-seventh governor of India.

A Berlin woman bequeathed her property to a cat.

The United Kingdom spends 4,400,000 a year on railroads.

England was first divided into shires during the seventh century, A. D.

Goubet, the inventor of submarine torpedo boats, has become insane.

Africa has nearly 700 languages, and this fact presents great difficulties to missionary effort.

The Governor of Georgia receives \$3,000 a year salary—\$500 less than the Governor of Florida.

The tight-fitting British uniform is alleged to be the cause of much heart disease among soldiers.

Floors of rubber, claimed to be as durable as asphalt and cheaper, are being tried in Germany.

Speaking generally, wild creatures inhabiting hot countries are more savage than those of cold or temperate countries.

GREAT LOSS OF LIFE.

TERRIBLE WORK OF WEST INDIAN HURRICANE.

Cuba, San Salvador and Keys Off Florida Coast Are Devastated—Number of Persons Killed Estimated at 373.

Loss of Life in Hurricane.
At Elliott's Key.....275
Off Bahama Islands.....50
Off Miami.....28
At Havana.....20
Total dead.....373

Hundreds, perhaps thousands, of lives have been lost in a terrific hurricane which swept from the coast of Venezuela on the south to the Florida coast on the north, and which raged 200 miles out on the Atlantic ocean.

So far as known the greatest loss of life was off the Florida coast. At Elliott Key a great tidal wave inundated the island. The 250 inhabitants were swept into the sea. From apparently reliable reports received the devastation on Elliott Key was complete, every living being perishing in the flood.

A large containing 100 refugees from a neighboring key, which had anchored in the ice of Elliott island, was struck by the tidal wave and swept out to sea. Fifty of those on board were either swept into the sea or killed by the force of the wave. The survivors were carried on the crest of the wave far out and were picked up late yesterday off the Bahama Islands. Many of the survivors were in a serious state as the result of their experience and some may die.

The extension steamer St. Lucie, which plies between one of the keys and Miami, was caught in the storm and sought the lee of Elliott key to ride it out. The St. Lucie was caught in the tidal wave which swept over the key and driven ashore, with the loss of twenty-eight persons and the wounding of a number of others.

Northern Cuba, especially the provinces of Havana and Pinar del Rio, felt the full force of the hurricane which raged there for over twenty hours, the wind at one time attaining a velocity of 120 miles an hour. Great damage was done in the city of Havana and to the shipping in the harbor and twenty lives were lost by the collapse of houses.

In the republic of San Salvador many lives were lost in a terrific storm which raged over the country for ten days. In many instances the topography of the country has been changed and the bodies of dead persons and cattle are floating down the swollen streams.

The Chinese Reform Edict.

Since the publication of the imperial edict, which commits the Chinese government to a modernizing policy of the laws, officials of all classes have taken a hand in the new movement. Forecasting by lot any of the temples has been prohibited by the chief of police of the inner city of Peking, and Viceroy Tuan Shih Kai has stopped the celebration of the Hsiao festival on the ground of extravagance. The commission, which recently visited Europe and America, has asked the empress dowager to remove the eunuchs from the palace on account of their evil influence. The constitutional government is to be established as soon as the public mind can be prepared for it. In the text of the imperial edict occurs the following naive passages: "Since the beginning of our dynasty, there have been wise emperors, who have made laws suited to the times. Now that China has intercourse with all nations, our laws and political system have become antiquated, and our country is always in trouble. Therefore it is necessary for us to gather more knowledge and draw up a new code of laws; otherwise we shall be unworthy of the trust of our forefathers and the people."

Report on Tuberculosis.

Dr. Lawrence F. Flick, director of the Henry Phipps institute for the study, prevention and treatment of tuberculosis, at Philadelphia, and his staff, have published an exhaustive report of their researches for two years, containing the latest revelations of science concerning the disease commonly known as consumption. It is found that negroes are far more susceptible than whites, and that the class designated as houseworkers has the greatest number of victims. The negroes are particularly dangerous to the community because they constitute the servant class and are brought into intimate association with other people. As a general rule there is a close association between the death rate of tuberculosis and indoor life, hardship and want.

To Investigate Capitol Scandal.

State Treasurer Berry of Pennsylvania, after refusing to honor bills for the extravagant trimmings of the new state capitol, put Gov. Pennypacker and Auditor Snyder on record by asking them definitely what authority they had to authorize the architect to spend \$9,000,000 on trimmings and furnishings after the building had been declared completed, with the expenditure of the original \$4,000,000 appropriation. Both Pennypacker and Snyder refused to answer, and Berry pressed his belief that from \$2,000,000 to \$4,000,000 was expended in excess of what should have been spent. It was expected that the matter would be brought into court by refusal to O. K. bills.

A Business of \$107,000,000,000.

The annual report of the New York clearing house for the year ending Sept. 30 shows transactions amounting to \$107,721,586,115. The total of balances for the year was \$3,332,621,023, a gain of over \$20,000,000 as compared with last year. Alexander Gilbert president of the Market and Fulton national bank, was elected president of the association, while Albert H. Wiggin, vice president of the Chase national bank, was made secretary and Manager William J. Gilpin was re-elected.

James Arthur Haggard, the "friend of Presidents," once wealthy, died recently at the county infirmary near Kokomo, Ind. He had seen and sustained a personal acquaintance with a greater number of the Presidents of the United States than any other citizen, perhaps, in the United States.

When a youth in Cincinnati he met James Haggard, General La Fayette, who was on a visit to this country in 1825, and at the same time shook hands with General Andrew Jackson. Mr. Haggard's first vote was for Martin Van Buren. Other Presidents he knew were William H. Harrison, James K. Polk, James Buchanan, Zachary Taylor, Millard Fillmore, Abraham Lincoln, Andrew Johnson, U. S. Grant, James A. Garfield, Grover Cleveland, Benjamin Harrison and William McKinley. He heard General Garfield preach once in the Christian Church at Cincinnati. Mr. Haggard served in the Mexican War under General Taylor, and while in the service was well acquainted with General Winfield Scott and Jefferson Davis.

John Lane, who lives in Washington, D. C., is the only man living who has seen the face of George Washington. This was when the body was removed in May, 1834, from the old vault to the tomb of Mount Vernon.

W. W. Morrow of the United States Circuit Court at San Francisco has been ordered by his physicians to refrain from all work and wear dark glasses for the next three or four months under the penalty of becoming totally blind. Since last April the judge has suffered from his eyesight. The physicians state that it has been caused by overstrain and overstudy. Judge Morrow was born near Milton, Ind., July 15, 1843. The family moved to Illinois in 1845, but he has resided in California since 1850. He was elected to the Forty-ninth Congress from San Francisco in 1881 and was re-elected in 1886 and 1888, but declined renomination in 1890. Judge Morrow was appointed United States District Judge of California Sept. 18, 1891, and United States Circuit Judge for the Ninth Judicial Circuit May 20, 1897. In 1899 he received a degree from Wabash College.

Arthur Stringer, the author, is an enthusiastic farmer and has a fine fruit farm at Cedar Springs, Ont.

William L. King, who was elected president of the Fire Underwriters' Association of the Northwest, is recognized as one of the scholars in the business. He was born in Brillinn, Wis., in 1857, and after running a country newspaper for a time he entered the insurance business in 1883 as local agent at Lisbon, N. D. He served for several years as a special agent in the Northwest, finally becoming an examiner in a Chicago general agency. In 1901 he became assistant manager of the western department of the Queen, and in 1904 he was made western manager of the Providence Washington. Mr. King has long been active in the association. His home is in Hinsdale, Ill.

John H. Converse, president of the great Baldwin locomotive works and one of the best known and most philanthropic citizens of the Quaker City, is one of the victims of the recent trust company exposure in that dignified municipality. He is one of the directors of the wrecked company and in common with the other members of the board had such implicit confidence in its late self destroyed president, Frank K. Hipple, that he permitted himself to become hypnotized into a feeling of security, the like of which the world has seen but rarely. That is all the criticism that can be urged against Mr. Converse. All his friends believe him to be the personification of integrity.

Captain Alexander Simpson of the Aberdeen liner Moravian has just completed his seventy-first voyage, having traveled 2,000,000 miles without a mishap, a feat supposed to be unparalleled in British marine circles.

Hedra Kozanlian, a rich Armenian merchant of New York, has authorized and furnished funds for the American board of foreign missions to send an able educator to the Euphrates college, Harpoot, Turkey, for five years.

COMMERCIAL AND FINANCIAL

Chicago. "With bank exchanges the greatest seen in six months, commodity movements of unprecedented magnitude and strongly sustained demands for finished products, business generally progresses satisfactorily. Seasonable extension appears in most lending branches of production and distribution. Weather conditions continued to stimulate active demand in both city and country retail lines. Dealings in the wholesale branches maintain a comparatively large aggregate and there is added pressure upon the capacity of furnaces, steel mills, factories and shipyards. Few additional advances followed last week's changes, but the whole range of prices for mine and forest products now stands at the highest level this year. Some falling off in buying might have been looked for among conservative consumers, yet it is remarkable and testifies to the strong position upon which current operations are based that commitments run further ahead than at any time heretofore.

The present drawbacks cannot be regarded unhealthily and are confined to unavoidable delays in getting necessary supplies and acute lack of adequate transportation facilities. Mercantile collections maintain average promptness and no heavy defaults enter into the failure record.

Manufacturing has reached a point which involves increasing the forces required, but labor is not readily obtained and wages rule high.

Chicago roads steadily increase earnings, indicating freight movements much greater than those of last year, but complaints are frequent as to car shortage and slow arrivals of merchandise at western points.

Failures reported in the Chicago district numbered 24, against 22 last week and 26 a year ago.—Dun's Review of Trade.

New York

Trade continues of large volume, and while the ordinary rush of fall trade is over and next spring's is receiving attention, active retail demand has induced a heavy volume of reorder business from jobbers. Except in a few sections where mild weather last winter left unsold stocks on hand, supplies of goods are not excessive, hence a continuance of the active reorder trade is likely, weather conditions allowing. Perhaps the most active branch of wholesaling and jobbing is that of cotton goods, which are in heavy demand, with slow deliveries still complained of. There is also a better tone to woolen goods, worsteds leading as heretofore. Prices are steady as a whole and the high range of all quotations does not seem as yet to be reflected in reduced sales. In general distributive lines the reports are almost uniformly favorable.—Bradstreet's Commercial Report.

Chicago—Cattle, common to prime, \$4.00 to \$7.25; hogs, prime heavy, \$4.00 to \$6.00; sheep, fair to choice, \$3.00 to \$5.40; wheat, No. 2, 7 1/2c to 7c; corn, No. 2, 4 1/2c to 4 1/4c; oats, standard, 3 1/2c to 3 1/4c; rye, No. 2, 4 1/4c to 4 1/2c; hay, timothy, \$10.00 to \$10.00; prairie, \$6.00 to \$14.00; butter, choice creamery, 18c to 20c; eggs, fresh, 22c to 26c; potatoes, 35c to 45c.

Indianapolis—Cattle, shipping, \$3.00 to \$6.35; hogs, choice heavy, \$4.00 to \$6.75; sheep, common to prime, \$2.50 to \$5.00; wheat, No. 2, 7 1/2c to 7c; corn, No. 2, white, 4 1/2c to 4 1/4c; oats, No. 2, white, 3 1/2c to 3 1/4c.

St. Louis—Cattle, \$4.50 to \$7.00; hogs, \$4.00 to \$6.50; sheep, \$3.50 to \$5.75; wheat, No. 2, 7 1/2c to 7c; corn, No. 2, 4 1/2c to 4 1/4c; oats, No. 2, 3 1/2c to 3 1/4c; rye, No. 2, 4 1/4c to 4 1/2c.

Cincinnati—Cattle, \$4.00 to \$5.50; hogs, \$4.00 to \$6.45; sheep, \$3.00 to \$4.75; wheat, No. 2, 7 1/2c to 7c; corn, No. 2, mixed, 4 1/2c to 4 1/4c; oats, No. 2, mixed, 3 1/2c to 3 1/4c; rye, No. 2, 4 1/4c to 4 1/2c.

Detroit—Cattle, \$4.00 to \$5.00; hogs, \$4.00 to \$6.35; sheep, \$2.50 to \$5.00; wheat, No. 2, 7 1/2c to 7c; corn, No. 2, yellow, 4 1/2c to 4 1/4c; oats, No. 2, white, 3 1/2c to 3 1/4c; rye, No. 2, 4 1/4c to 4 1/2c.

Milwaukee—Wheat, No. 2, northern, 7 1/2c to 7c; corn, No. 2, 4 1/2c to 4 1/4c; oats, standard, 3 1/2c to 3 1/4c; rye, No. 1, 6 1/2c to 6 1/4c; barley, standard, 5 1/2c to 5 1/4c; pork, mess, \$14.00.

Buffalo—Cattle, choice shipping steers, \$4.00 to \$6.00; hogs, fair to choice, \$4.00 to \$6.70; sheep, common to good mixed, \$4.00 to \$5.35; lambs, fair to choice, \$5.00 to \$7.00.

New York—Cattle, \$4.00 to \$6.00; hogs, \$4.00 to \$6.75; sheep, \$3.00 to \$5.50; wheat, No. 2, red, 7 1/2c to 7c; corn, No. 2, 4 1/2c to 4 1/4c; oats, natural white, 3 1/2c to 3 1/4c; butter, creamery, 20c to 27c; eggs, western, 22c to 25c.

Toledo—Wheat, No. 2, mixed, 7 1/2c to 7c; corn, No. 2, mixed, 4 1/2c to 4 1/4c; oats, No. 2, mixed, 3 1/2c to 3 1/4c; rye, No. 2, 4 1/4c to 4 1/2c; clover seed, prime, \$8.17.

Told in a Few Lines.

The bodies of the thirty-five miners lost in the West mine disaster of Oct. 3 near Rockton, Va., have been recovered.

Raymond Billingsley, 57 years old, died of hydrophobia at Greenwich, Conn., having been bitten by a dog on Aug. 9.

The late Senator Gorman of Maryland did not die as wealthy as was supposed. His personal estate was only \$112,400.
